Academic & Career Connections

There is no better time to upgrade your high school marks or get the academic credits you need at NSCC. Through our [Academic & Career Connections \(ACC\)](#) Program, you can start your journey to a high-demand career in this new economy. According to the Conference Board of Canada “The challenges of 2020 only reinforce the **importance of a post-secondary education.**”

Why study at NSCC?

- **You now have access to the widest range of courses ever.** Beyond the walls of your local campus, there are hundreds of classes you can now access online in ACC. You'll be able to upgrade credits, explore career options and earn credits that count towards a College credential or university degree.
- **You can work and go to school.** ACC is available full-time or part-time, whether you are a recent high school graduate or if you have been out of school for a while, this is a great way to transition into post-secondary.
- **You have many flexible learning options.** You can choose from scheduled, real-time online class sessions (day or evening) where you meet virtually with instructors and classmates, or you can enrol in online classes that you can take anytime, anywhere – on your own schedule.

There has never been a better time to join us at NSCC. Ask your local NSCC campus about classes in [Academic & Career Connections](#) or [apply today](#).
